📍 Hyderabad, India

SUMMARY

I am a Data Analyst with over 2+ years of experience specializing in SQL, ETL development, data validation, and business intelligence reporting. My expertise includes writing complex SQL queries, optimizing data workflows, and building scalable reporting solutions using tools like Power BI and Tableau. I have a proven track record of analyzing large datasets and improving reporting accuracy through automated pipelines and quality checks. My strong collaboration skills enable me to work effectively with cross-functional teams to deliver impactful analytical insights

EXPERIENCE

Systems Engineer

Tata Consultancy Services

📅 03/2024 📍 Hyderabad, India

Leading global IT services, consulting, and business solutions organization

- Developed and maintained SQL-based ETL workflows for transforming and loading structured business data, improving reporting efficiency by 40%
- Wrote and optimized complex SQL queries using JOINS, CTEs, window functions, stored procedures, and aggregations to process datasets containing over 1M records
- Performed data profiling, validation, reconciliation, and quality checks to ensure 98% data accuracy across reporting systems
- Worked on Informatica ETL mappings, source-to-target mappings, and transformation logic to support enterprise reporting requirements
- Automated recurring reporting processes using SQL, Python, reducing manual reporting effort by 60%
- Designed Power BI dashboards and KPI reports for monitoring sales trends, customer behavior, and operational performance across multiple regions
- Collaborated with business stakeholders and cross-functional teams to gather reporting requirements and deliver analytical insights within project timelines
- Supported UAT testing, defect validation, and production deployment activities to ensure successful report releases and stable ETL operations
- Monitored ETL job execution, analyzed failures, and resolved performance bottlenecks, improving workflow stability by 35%
- Documented ETL mappings, business rules, data flow diagrams, and transformation logic for audit and knowledge-sharing purposes

CERTIFICATIONS

- **Microsoft Certified: Azure (AZ-900)**
Microsoft Azure certification that covers cloud concepts, core Azure services, security, privacy, compliance, and trust
- **Microsoft Certified: Power BI Data Analyst Associate (PL -300)**
Certification focuses on data visualization and reporting tools within Power BI
- **Google Cloud Certified: Google Workspace Administrator**
Certification that validates the fundamental skills and concepts for managing Google Workspace environments

EDUCATION

Bachelors of Engineering - Civil Engineering

Aurora's Technological and Research Institute

📅 4/2020 - 06/2023

KEY ACHIEVEMENTS

Data Reporting Improvements

Achieved a significant improvement in reporting accuracy and efficiency through the development of automated data pipelines and quality checks

SKILLS

SQL, ETL, Microsoft Power BI, Python, Tableau, UAT, DAX, Power Query, Microsoft Excel, Pandas, Numpy, Matplotlib, EDA, Dataflow, Dashboard, Informatica, Azure, Cloud, Google Workspace

PROJECTS

Sales Data Analysis

Analysis of sales data leveraging SQL and Power BI

- Processed and analyzed 500K sales records using SQL and Python to identify revenue trends, customer segmentation, and regional performance metrics, improving reporting accuracy by 80%
- Developed and optimized SQL queries using JOINS, CTEs, subqueries, and window functions, reducing query execution time by 35% and improving data processing efficiency
- Built interactive Power BI dashboards with KPI cards, drill-through analysis, and dynamic filters, generating insights that contributed to 25% higher regional sales growth

HR Analytics Dashboard

Creation of an HR analytics dashboard to monitor and visualize HR KPIs

- Analyzed employee attrition, workforce trends, and hiring patterns across multiple departments using Power BI and Excel.
- Created DAX measures, Power Query transformations, and interactive dashboards to monitor HR KPIs and workforce performance
- Improved reporting efficiency by 50% using automated dashboards and reusable templates.
